MO Lottery

Overview

What is a lottery?

A lottery consists of three elements: prize, chance and consideration.

Lotteries are not new to American history...

The first lottery with cash prizes dates back to 1490, two years before Columbus set sail. Lotteries were authorized to raise money for the colonial army. In addition, a lottery helped put a roof on the United States Capitol. Lotteries also helped build educational institutions like Harvard, Yale and Princeton universities.

It wasn't until 1964 that the modern lottery era began in New Hampshire, and since that time, 44 states, the District of Columbia, Mexico, Puerto Rico, the U.S. Virgin Islands and Canada have created lotteries. For a complete historical timeline of lotteries, visit www.naspl.org.

On Nov. 6, 1984, Missouri voters overwhelmingly approved the Missouri Lottery by passing Amendment 5, which repealed a section of the state's constitution prohibiting a lottery. The measure passed with 70 percent of the vote, making the Missouri Lottery the 23rd lottery in the United States.

Missouri's Lottery

Missouri Lottery ticket sales began 30 years ago in January 1986, and since that time, the Lottery has provided the state, including education, with more than **\$5.3 billion** in proceeds. Additionally, 443 players have won life-changing jackpots between \$1 million and \$293.7 million, totaling more than \$3.3 billion. Missouri Lottery retailers have earned more than \$1.1 billion in commissions, incentives and bonuses.

A five-member commission, appointed by the governor and approved by the Senate, governs the Lottery. The executive director oversees the daily operations of the government agency.

The Missouri Lottery is based in Jefferson City with three regional offices located in: Kansas City, St. Louis and Springfield. The Lottery is broken down into three divisions: Executive Director's Office, Division of Risk Management and Division of Sales, Marketing and Communications.

The Missouri Lottery's Vision:

"The Missouri Lottery will utilize best practices to be recognized as a leader in the lottery industry."

The Missouri Lottery's Mission:

"The Missouri Lottery generates funds to provide educational opportunities for Missouri students, support Missouri businesses and entertain millions."

The Missouri Lottery's Core Values:

The Missouri Lottery embraces integrity, accountability and dependability as core values in our day-to-day operations. The guiding principals of honesty, reliability and professionalism in our daily actions and interactions with our internal and external customers are essential to the continued success of the Lottery and demanded by the public we serve.

Scams and Spam

Phony Promotions, Illegal Schemes and Bogus Emails (Spam)

According to the Federal Trade Commission (FTC), consumers in the United States and other countries lose billions of dollars each year to fraudulent telemarketers, spam emailers, misleading advertisements and even Facebook posts that entice consumers into phony prize promotions, illegal foreign lottery schemes and other lottery-related fraud.

Individuals involved in the sale and trafficking of foreign lotteries, unwanted telemarketing calls and – under the federal government CAN-SPAM Act, which took effect Jan. 1, 2004 – unsolicited commercial email, or “spam,” can be prosecuted in the United States. When it comes to fraud, being an informed consumer is the best way to protect yourself.

Recognizing Legitimate Contacts From The Missouri Lottery

To claim a Missouri Lottery prize, you will NEVER be required to send any money or give personal information by email, the phone or social media in an effort to collect promised winnings.

There are only a few instances that the Missouri Lottery may require a player to submit some personal information. These instances include:

1. Supplying their Social Security number on a Lottery provided claim form for prizes over \$600. **This information is never collected over the phone or by email.**
2. Verifying a winner’s phone number and shipping address for prize redemption if the winner has entered an online promotion and is selected as a prize winner.

The Missouri Lottery does not sell, trade or otherwise distribute players’ information to a third party. **Players will never be asked to submit private information or family data, like your mother’s maiden name.**

In a few instances each year, a Lottery representative may contact a grand-prize promotion winner by telephone to tell the winner he or she was drawn as a promotional prize winner and to interview him or her for a story. At that time, however, winners are not required to provide vital information such as Social Security numbers or banking information. The call is always followed up with a letter and email, and the player will be able to verify that his or her name was drawn by going to the Lottery’s website. Ticket Tips

- **Upon purchase of your ticket, completely fill out the back and sign it.** Remember, in order to claim any Lottery prize, you must have your ticket. Just like dollar bills, Lottery tickets are bearer instruments.
- **Ensure the wager on the ticket is the one you requested before you exchange money for the ticket.** It is your responsibility to ensure that your ticket has the correct information, like the numbers played, dates played, type of play, etc.
- **Know when your tickets expire.** Draw Game tickets expire 180 days after the draw date. Scratchers games expire 180 days after the official game ending date. For a list of official Scratchers game ending dates and expiration dates, visit MOLottery.com.
- **Keep tickets in a safe place.** From time to time, the Lottery receives tickets from players that have been destroyed by things like washing machines. Unfortunately, most of these tickets have been too badly damaged for the Lottery to reconstruct.
- **Always allow extra time for any damaged ticket you send to the Lottery for verification.** Damaged tickets will take more time to process.

Payment Options

Jackpot winners have 60 days from the claim date to choose a payment option. If an option is not selected after 60 days, payment automatically defaults to the graduated annuity option.

- **Jackpot payments (annuity):** 30 graduated annuity payments over 29 years (payments that increase each year).
- **Lump-sum payment (cash):** The cash option prize is approximately half of the advertised jackpot. If a winner chooses the cash option, he or she will get the cash the Lottery would have invested over the 29-year annuity period to pay the advertised prize amount.

Club Keno & Keno To Go

Club Keno is a daily Draw Game that gives players a chance to win up to \$100,000 per \$1 ticket. Drawings are held every four minutes from 5:04 a.m. to 1:52 a.m. The traditional Club Keno is available at nearly 1,000 social environment locations like restaurants, bars and fraternal organizations. The drawings are shown on television monitors (video only; no audio) at the retail location. The Draw Game officially began on May 28, 2002.

Keno To Go is available at convenience stores, grocery stores and similar locations.

To Play Club Keno

- To play, choose how many different numbers (also called “spots”) you want to play from 1 to 10. Twenty numbers from a field of 1-80 will be chosen randomly by the computer. Players win for the drawing they played if their numbers match those drawn. The more numbers a player matches, the more they will win. Players can even win by not matching any spots in a 10-spot game.

Game Options

- **Progressive:** A FREE feature. Play the 6-, 7- or 8-spot games for a chance at an added rolling jackpot bonus, in addition to regular top prizes for these spots.
- **Multiplier:** This option provides the opportunity to multiply a prize up to 10 times the base amount; up to \$1 million.
- **Bulls-Eye:** This option provides larger prizes and more chances to win.
- **Double Bulls-Eye:** This option provides more chances at larger prizes and more chances to win.

Progressive Jackpot with 6-, 7- and 8-Spot Games

The 6-, 7- and 8-spot games have an extra rolling jackpot prize called “progressive.” Players are automatically eligible if they choose to play any of these three spots. **There is no additional cost and nothing additional to mark on the playslip.** The Progressive feature adds a rolling jackpot bonus prize in addition to the regular top prizes on these spots (6 of 6, 7 of 7 or 8 of 8 numbers matching those drawn). It is a pari-mutuel jackpot prize, meaning the prize varies depending on the total amount played and number of winners. If a player matches all the numbers on a 6-, 7- or 8-spot game, the player will automatically win both the regular prize and the rolling jackpot bonus prize. If the jackpot is not won during the drawing, it continues to grow.

Progressive Jackpot on Club Keno Monitors

The Keno Progressive jackpot amount is the base play for that spot play and bonus jackpot amount. Example: The base for matching all eight numbers on an 8-spot game is \$10,000. When the monitor displays \$10,500 for the 8-spot Progressive jackpot, it is equal to the \$10,000 base plus the jackpot bonus amount of \$500.

Club Keno & Keno To Go

Multiplier Feature

With this feature, players will have the option, for an extra \$1 per \$1 play, to win up to 10 times the prize amount on all Club Keno base prizes (up to \$1 million). Before each drawing, a wheel is spun to determine the Multiplier number for that drawing. The wheel includes 80 slots with the numbers 1, 2, 3, 4, 5 and 10. Those numbers represent the amount of the Multiplier. See the chart below for overall chances for the Multiplier.

Multiplier number	Number of times each number appears on the wheel	Overall chances of number being selected is 1 in:

Bulls-Eye Feature

The Bulls-Eye option offers larger prizes and more chances to win. One of the winning 20 numbers drawn every four minutes is the red Bulls-Eye number. Every time a player uses Bulls-Eye and matches the Bulls-Eye number, they will win bigger prizes. Players can win a Bulls-Eye prize even if they don't win a Club Keno prize. There are three ways to win when Bulls-Eye is added:

1. Match your number to the Bulls-Eye number drawn with no other Club Keno numbers matching those drawn.
2. Match your numbers to the Bulls-Eye number and additional Club Keno numbers drawn.
3. Match your Club Keno numbers to those drawn with no Bulls-Eye number match.

The total cost of the transaction will be double, meaning the Bulls-Eye wager will always match the amount of your Club Keno wager.

3 How many consecutive draws do you want to play?

1 2 3 4 5 10 20

4 How much do you want to play per draw?

\$1 \$2 \$3 \$4 \$5 \$10 \$20

5 Do you want to play Multiplier?

Club Keno & Keno To Go

Double Bulls-Eye Feature

The Double Bulls-Eye option offers even larger prizes and more chances to win. During every Club Keno drawing, 20 winning numbers are drawn. At the end of that drawing, one of those numbers is selected as the Bulls-Eye number. This Bulls-Eye number is red. With the addition of Double Bulls-Eye, a second Bulls-Eye number (green) will be drawn after the first (red) Bulls-Eye has been drawn. Players who play Double Bulls-Eye will win cash when they match either the red or green Bulls-Eye number and even more cash when they match both the Bulls-Eye numbers for Double Bulls-Eye. There are five ways to win cash when Double Bulls-Eye is added to a Club Keno Play:

1. Match the Club Keno numbers played to **either** the red **or** green Bulls-Eye numbers with **no** other Club Keno numbers matching those drawn.
2. Match the Club Keno numbers played to **either** the red **or** green Bulls-Eye numbers **and** additional Club Keno numbers drawn.
3. Match the Club Keno numbers played to **both** the red **and** green Bulls-Eye numbers (Double Bulls-Eye) with **no** other Club Keno numbers matching those drawn.
4. Match the Club Keno numbers played to **both** the red **and** green Bulls-Eye numbers (Double Bulls-Eye) **and** additional Club Keno numbers matching those drawn.
5. Match the Club Keno numbers played to those drawn with no Bulls-Eye number matched.

Club Keno plays with Double Bulls-Eye cost an extra \$2 per \$1 Club Keno play (\$1 Club Keno + \$2 Double Bulls-Eye = \$3 for Double Bulls-Eye).

Claiming Cash Prizes

Missouri Lottery retailers may be able to redeem prizes up to \$600. Players can also redeem prizes through the mail or at any of the Missouri Lottery's four offices. (See page 9 for office addresses.) Addresses and maps for each office also are available on the Lottery's website, MOLottery.com. Office maps are also found in the Reference Section in the back of this publication (see page 64).

Powerball, Mega Millions or Lucky for Life jackpot/top prize winners must present the winning ticket at Missouri Lottery Headquarters in Jefferson City during regular business hours to validate and claim their prize. Lotto and Show Me Cash jackpots and Scratchers top prizes can be claimed at any Lottery office.

If a prize is more than \$600, the winning ticket must be accompanied by a completed claim form and a W-9 form, which are available at Lottery retailers, Lottery offices and on the website at MOLottery.com. Winning tickets must have a name, address, telephone number and signature to be redeemed.

Mail winning tickets to:

Missouri Lottery
Ticket Redemption
P.O. Box 7777
Jefferson City, MO 65102-7777

Players have exactly 180 days from a Scratchers game's official end date to claim a prize or exactly 180 days from a Draw Game drawing to claim a prize. Official game end dates can be found at MOLottery.com.

Taxes

The Lottery withholds 4 percent Missouri state taxes on prizes of more than \$600 and an additional 25 percent federal tax for prizes more than \$5,000. Depending on a player's income situation, he or she may owe additional taxes or may receive a refund. A W-2G form is printed on check stubs for prizes of \$600 or more.

Missouri Lottery Drawings

Missouri Lottery Drawings

The Lottery's computerized drawing system, which was implemented on July 19, 2004, uses technology to select the numbers for our in-state Draw Games. The computerized system, named ODDS (Online Daily Draw System), is housed in a secure draw room in Jefferson City. These draw computers are not connected to the Internet or any other network source. The room has no other phone or data lines from which to send or receive information. The Missouri Lottery has numerous security measures in place to ensure the integrity of the draw system.

The system is operated by the Lottery draw manager in the presence of an independent auditor. The system will permit only one drawing per game, per draw date and draw time.

Only designated Lottery draw managers and an independent auditor are allowed in the room during a drawing. Access to this room is further limited by a dual access keypad that requires two different authorized individuals to enter their codes to open the door. Every drawing is monitored by surveillance cameras in the room. A digital video feed provides a detailed record of everything that occurs on the drawing computer monitor. Furthermore, the computer used to draw the numbers is randomly selected from a field of three before the draw.

Login access to each drawing computer is protected by fingerprint recognition hardware and software. Consequently, only designated draw personnel have access to the drawing computers. In addition to the surveillance cameras in the draw room, the keystrokes are recorded on the Automated Draw Machines (ADMs) for each drawing. The draw manager conducts pre-tests for all games to ensure the system is working properly. Only then do the drawings take place. This room includes a large window so the public and other Lottery personnel can view the drawings.

Prior to conducting pre-tests and drawings, the draw system utilizes special software to determine if the database has been accessed since the last drawing. Additionally, the Lottery's draw system has undergone numerous independent tests and certifications to guarantee randomness. A statistics professor from the University of Missouri-Columbia and an independent testing lab for gaming regulators certified the Lottery's ODDS software, random-number generator, draw procedures and physical security of the draw room.

Winner Information

Winner Information and Remaining Prizes

Winner Information

During FY15, which ran from July 1, 2014, to June 30, 2015, more than 214,000 players won a prize in the Lottery every day. In total, players won more than \$755 million in FY15. To date, Missouri Lottery players have won more than \$11.3 billion in prizes overall.

In FY15, 20 life-changing jackpots ranging from \$1 million to \$202.6 million were won in Missouri, totaling more than \$228.2 million. One Powerball Match 5 prize worth \$1 million expired. Also, in FY15, 46 players won between \$50,000 and \$467,000 playing Show Me Cash.

Remaining Scratchers Prizes

Scratchers players can view and compare remaining prize information for all Scratchers games at MOLottery.com. On the main Scratchers page, players can compare the remaining prizes in the top four prize levels of each game, along with the total cash prizes remaining for that game, with all other games that are currently selling in retail locations.

Since as many as 40 games can be selling at one time, Scratchers players can sort the list by ticket price. Once the page reloads, the list will be reorganized with all the games at that price point for each comparison. The list can also be sorted by start date, game number and game name.

By clicking on the game name in the list, players are directed to a more detailed page about that game. Information on the page includes all prize levels listed for that game and corresponding remaining prize information, total cash prizes won and remaining for that game, how-to-play instructions, a graphic of the game ticket and average chances of winning a prize in that specific game. Remaining prize information is updated daily.

Unclaimed Prizes

Unfortunately, some players don't realize they have won a Missouri Lottery prize. Sometimes tickets are mistakenly thrown away, a redemption deadline lapsed or a simple error was made when looking at the ticket. Whatever the reason, approximately 1 percent of sales will be reflected in unclaimed prizes each year.

Currently, unclaimed prize money is transferred to the Lottery Proceeds Fund to benefit public education. Prior to fiscal year 2001, unclaimed prize money was returned to players as prizes and promotions.

The largest Missouri prize to go unclaimed was a Lotto prize for \$1.7 million from the Feb. 20, 1999, drawing. That ticket was sold at Git-N-Go, 2808 S. Campbell, in Springfield. In addition, one Powerball prize worth \$1 million, six Powerball prizes worth \$200,000 and 41 Powerball prizes of \$100,000 have gone unclaimed since the game began in 1992.

Where Do Missouri Lottery Proceeds Go?

Fiscal Year Results:

The total proceeds contributed to public education in FY15 were more than **\$270.7 million**.

How Each Dollar is Divided:

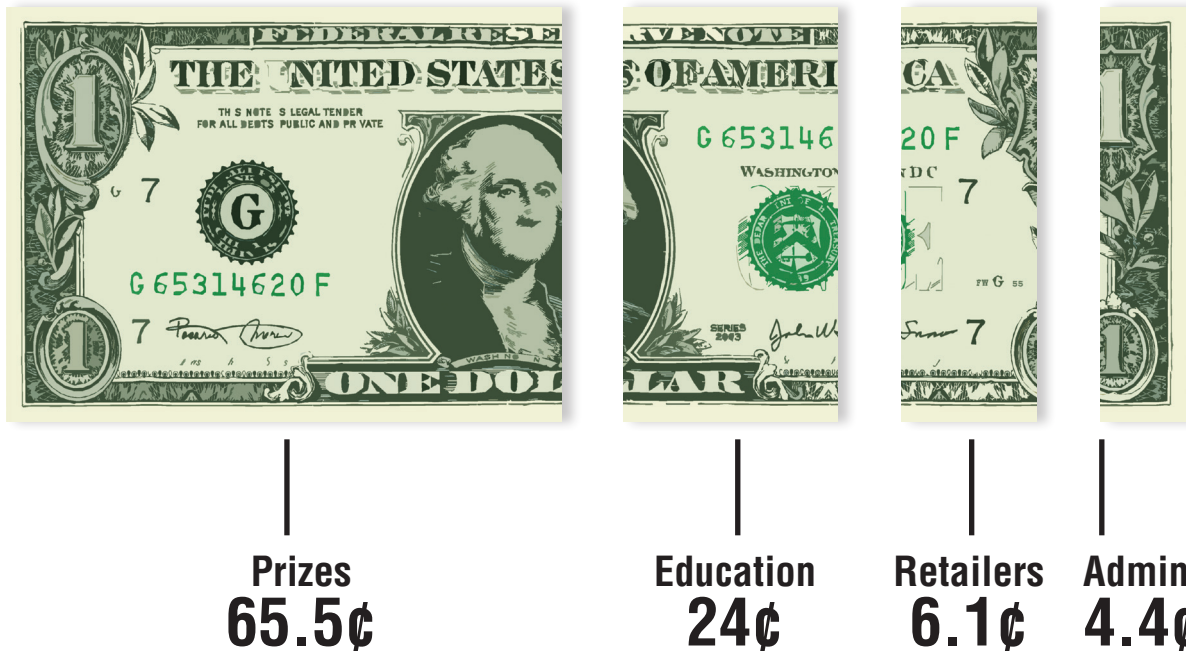

Approximately 24 cents of every dollar spent on the Missouri Lottery benefits Missouri's public education programs; 65.5 cents goes back to players as prizes, 6.1 cents goes to retailers in the form of commissions and just 4.4 cents is used for administrative costs. In all, more than 95 cents of every dollar stays in Missouri.

How Proceeds are Allocated:

When the Lottery began in 1986, proceeds from ticket sales went to the Missouri State General Revenue Fund. In August 1992, voters passed Amendment 11 earmarking Lottery proceeds to solely benefit public education. Each year, the Missouri Legislature determines how these proceeds will be allocated. The proceeds represent about 4 percent of the total funding for Missouri's public elementary, secondary and higher education systems.

Lottery funds help support a variety of programs including the A+ Scholarship Program, Virtual Schools, Special Education Excess Costs, operating costs at colleges and universities and educational scholarships. These programs and others that receive Lottery money provide the resources that help Missouri students fulfill their individual dreams – dreams that define Missouri's future and ultimately benefit all Missouri residents.

Programs

Missouri AMBER Alert

In the fall of 2001, the National Center for Missing & Exploited Children (NCMEC) launched the AMBER Alert – America’s Missing: Broadcast Emergency Response – nationwide. The goal of the program is to assist cities and towns across the U.S. with creating their own emergency alert plan.

In May 2005, Missouri joined the AMBER Alert Web portal, a nationally connected communication system to help ensure the safety and rescue of missing children.

The Missouri AMBER Alert program is a statewide program designed by the Missouri Department of Public Safety to inform the public of the most serious child-abduction cases. The Missouri Lottery partners with other state and private organizations to communicate the Alerts and utilizes its various communication channels to disseminate AMBER Alert messages to approximately 4,700 retailers, thousands of Lottery players and millions of people worldwide through its website.

How does Missouri AMBER Alert work?

Once law enforcement has been notified about an abducted child, they must first determine if the case meets the activating Missouri AMBER Alert criteria:

1. Law enforcement officials confirm that a child has been abducted;
2. Law enforcement officials believe that the child could be in serious imminent danger; and
3. There are sufficient details concerning the abduction to make a public alert useful.

If these criteria are met, Alert information must be put together for public distribution. The information can include descriptions and pictures of the missing child, the suspected abductor, a suspected vehicle and any other information available and valuable to identifying the child and suspect.

The Missouri Lottery’s Role

Missouri Lottery retailers and players are in a unique position to help spot missing children. In the event of a Missouri AMBER Alert, the Lottery will send messages through the terminal to retailers. In addition to the online terminal retailer message, the Missouri AMBER Alert message will be broadcast on monitors in retail locations.

When possible, this message will also appear on all Draw Game tickets. In addition, the Lottery will publicize the message on the MOLottery.com website and in the winning numbers email subscription service. The Lottery also provides retailers with special, fill-in-the-blank Missouri AMBER Alert signs that can be downloaded from the Lottery’s retailer portal website, retailer.molottery.com, which can be completed and posted on location.

Responsible Gaming

Responsible Gaming

With many things in life, there are people who have problems with moderation. Gaming is no exception. Up to 5 percent of gamblers have problems playing responsibly and could be considered “compulsive” or “pathological.”

Responsible Gaming Mission:

“As a gaming entity, the Missouri Lottery recognizes that while the vast majority of Lottery players gamble responsibly, a small number of Lottery players can experience personal, financial and social difficulties due to playing Missouri Lottery games. Therefore, it is the responsibility of the Missouri Lottery to promote responsible gambling, take part in responsible gambling activities and promote the availability of problem gambling treatment.”

What Is Compulsive Gambling?

Compulsive gambling is a behavior disorder in which an individual has an uncontrollable preoccupation and urge to gamble. This results in excessive gambling, the outcome of which is loss of time and money. The gambling reaches the point at which it compromises, disrupts or destroys the gambler’s personal life, family relationships or vocational pursuits. The key signs are emotional dependence on gambling, loss of control and interference with normal functioning.

Do You Have A Problem? Compulsive Gamblers:

- Frequently think about past gambling experiences, future plans or how to get money for gambling;
- Need to increase spending to reach a high level of excitement;
- Have failed at stopping or controlling gambling;
- Become restless and/or irritable when trying to cut back or stop gambling;
- Gamble to escape problems and to feel better;
- Frequently return to “get even” after experiencing losses (chasing one’s losses);
- Lie to cover up gambling activity;
- Have committed or planned illegal acts to finance gambling;
- Have problems with job, school or relationships;
- Rely on others to help out financially.

Additionally, the Missouri Lottery became one of the first U.S. lotteries to achieve a Level 2 certification in FY13.

Responsible Gaming Awareness Programs

Annual McGill Holiday Campaign

Each holiday season, the Missouri Lottery participates in an annual holiday awareness campaign which focusses on promoting responsible gaming and not gifting lottery products to minors during the holiday season. The campaign is sponsored by McGill University, the International Centre for Youth Gambling Problems and High-Risk Behaviors and the National Council on Problem Gambling. Each year, dozens of lottery organizations from around the world participate in the program.

'Beat Addiction: Choose the Right Path' Program

In August 2000, the Missouri Alliance to Curb Problem Gambling kicked off a youth gambling prevention campaign to help educate youth, parents, school counselors and officials and the general public about the dangers of gambling at a young age. The campaign included posters, brochures, speaker presentations, informational mailings to school counselors and attendance at educational conferences throughout the state. With assistance provided through the Division of Guidance and Placement at the Missouri Department of Elementary and Secondary Education, the campaign was designed to be the initial step in creating a program to raise awareness about problem gambling.

In 2002, the Lottery developed and distributed an award-winning youth addiction prevention program called "Beat Addiction: Choose the Right Path." The program was designed to teach students risk factors of addiction and the information necessary to make healthier choices. The program featured a video that focused on one woman and her family's struggle with addiction, curriculum and informational brochures. The program, which was recommended for grades 9 through 12, was made available for free to all Missouri schools. More than 1,000 Missouri schools requested copies of the video kit. The video was also used and shown in several other states and countries throughout the world.

In 2008, the Beat Addiction program was revised and updated. The updated version, which is recommended for grades 6-12, features four testimonials and re-enactments about teens who have battled various addictions, including: gambling, marijuana, methamphetamine, cocaine, heroin and alcohol. The revised edition also includes the original program from 2002, a facilitator's guide and poster. The facilitator's guide was developed with assistance from the Missouri Department of Elementary and Secondary Education to incorporate the Missouri Show Me Standards, which are curriculum guides established in response to federal mandates.

Responsible Gaming Awareness Programs

‘DO THE RIGHT THING’ Retailer Integrity and Responsibility Program

Every August, the Missouri Lottery’s Sales team oversees an annual compliance check with more than 4,700 Lottery retailers. These checks ensure that the Lottery’s retailers are following responsible gaming protocols such as player age confirmation, verification of secure Scratchers tickets storage and having Lottery-provided responsible gaming information readily accessible to players.

Self-Exclusion Program (SEP)

The Missouri Lottery’s Voluntary Self-Exclusion Program is a responsible gaming resource for players who classify themselves as problem or pathological gamblers to reduce the incentive to play Lottery games. Since Aug. 1, 2013, the Missouri Lottery has offered a program that allows players to enter into voluntary lifetime self-ban agreements with the Lottery prohibiting those individuals from claiming prizes of more than \$600 and accessing the *My Lottery* Players Club.

Individuals who want to participate in SEP should sign, notarize and then submit agreements to the Lottery. In the agreements, players acknowledge that they are voluntarily applying to be part of the program, which will restrict that player from the ability to claim a prize of more than \$600 at a Lottery office or participate in the *My Lottery* Players Club.

The Lottery maintains a computer database containing the information of SEP participants, which is checked whenever someone claims a prize at a Lottery office. SEP participants will be denied prize payment. The Lottery also removes participants from any mailing or promotional lists and the *My Lottery* Players Club.

Self-Exclusion Program agreements can be downloaded at MOLottery.com or obtained at any Lottery office or sent through the mail. Forms must be completed entirely and notarized.

Completed and notarized forms can either be hand-delivered to any Lottery office or mailed to the Lottery at: MO Lottery, Attn: Responsible Gaming Coordinator, P.O. Box 1603, Jefferson City, Mo., 65102-1603.

***Frequently Asked
Questions***

Frequently Asked Questions

Q. Do Lottery proceeds really go to schools?

A. Yes. All profits – 100 percent – go to Missouri public education. This is approximately 24 cents of every dollar spent on the Missouri Lottery. Annual Lottery proceeds make up approximately 4 percent of the state’s funding for public education.

Q. Does the Missouri Lottery offer subscription sales to players?

A. No. Players can purchase Missouri Lottery tickets from a licensed Missouri Lottery retailer. The Lottery cannot mail tickets across state lines.

Q. Can I purchase Lottery tickets online?

A. No. The Missouri Lottery does not currently offer sales via the Internet.

Q. Does the Lottery keep most of its proceeds?

A. From every dollar spent on a Lottery ticket, more than 95 cents is returned to Missouri residents: an average of 65.5 cents goes back to players through prizes, 24 cents goes to Missouri’s public education system and 6.1 cents is earned by retailers who sell Lottery tickets. Just 4.4 cents of every dollar goes to pay administrative expenses, including advertising, ticket printing and computer system costs.

Q. Who oversees casinos and bingo games?

A. Casinos and bingo games are not a part of the Missouri Lottery. They are governed by the Missouri Gaming Commission.

Q. Who is the “average” Missouri Lottery player?

A. The average player is a 44.6-year-old white employed female that is a high school graduate with some college education.

Q. Is there a danger of Lottery players becoming compulsive gamblers?

A. Studies show that about 1 to 5 percent of those who gamble through any means experience problems.

Q. How can I become a Missouri Lottery retailer?

A. Only businesses located within the state of Missouri can be Missouri Lottery retailers. Visit retailer.molottery.com to learn more.

Q. If I win a big jackpot prize or an annuitized Scratchers prize and die before I receive it all, where does the remaining money go?

A. When a winner receiving annuity payments dies, the Missouri Lottery continues to make payments to the winner’s estate.

Q. Where can I find past winning numbers?

A. You can find complete lists of past numbers drawn in the “Winning Numbers” section at MOLottery.com.

FAQs

Q. Why is the cash value of a jackpot only about half of what is advertised? Where does the rest of the money go?

A. The lump-sum payment is approximately half of the advertised amount since the Lottery will be giving you the money it would have invested over 29 years (30 graduated payments) for a Powerball jackpot or a Mega Millions jackpot, 24 years (25 payments) for a Lotto jackpot or a guaranteed minimum of 20 years for Lucky for Life.

Q. Are the terminals in retail locations and the drawing equipment connected in any way?

A. No. Each drawing machine is self-contained and independent of any other system. See Draw information on pg. 34 for complete details.

Q. Does anyone in Missouri ever win the Powerball jackpot?

A. Out of the 47 lotteries participating in the Powerball game, Missouri ranks second behind Indiana in the number of Powerball jackpot winners with 31.

Q. Can a group of people claim a prize?

A. Yes. Each member will need to complete and submit a claim form.

Q. Can Powerball, Mega Millions and Lucky for Life players redeem their winnings in any member state?

A. No. Players must redeem their prizes in the same state they bought the tickets.

Q. Since so many people play Powerball, Mega Millions and Lucky for Life, aren't the chances of winning worse?

A. No. No matter how many people play these multi-state games, the chances of winning never change. The chances are based on the amount of number combinations, not the number of players.

Q. Why does it seem like all the jackpot winners come from big cities?

A. Missouri Lottery jackpot winners have come from all across the state.

Q. If I buy a Quick Pick ticket, can anyone else buy those numbers using Quick Pick?

A. Yes. Quick Pick tickets are generated randomly by the terminal at the retail location, and there is no central computer that is controlling ticket generation. The chances of buying a Draw Game ticket with the same numbers as someone else are the same as the chances of winning the jackpot.

Q. If I should win the jackpot, do I have the option of remaining anonymous to the public and the media?

A. Missouri state law requires the Lottery to release your name, city of residence and the amount of the prize.

Q. Where can I hear about top-prize winners in Missouri Lottery games?

A. News releases with the names of prize winners of \$1,000 or more are sent to media throughout the state. They are also posted in the Newsroom section at MOLottery.com.

Q. Does anyone know where the winning Scratchers tickets are located?

A. No. Because of strict security measures, no one – including Missouri Lottery employees – knows where winning Scratchers tickets are located.

Q. Are there fewer Scratchers prizes now?

A. No. The chances of winning Scratchers games continue to improve. In the Lottery's early days, the games only paid out 45 percent of sales in prizes, the maximum amount allowed by law, at the time. Now Scratchers games pay out an average of 70 percent of sales in prizes, and an average of approximately 1 in every 4 tickets is a winner.
